WSCC Positions

	Туре	Title	General Description	Date
1	Position	Burning Off Field Residue of Agricultural Crops	WSCC recommends to regulatory agencies that permits for burning field residue be granted only when it is necessary for pest and production control and based on the merits of individual cases approved by conservation district boards.	1975
		Field Burning of Turf & Field Grasses for Seed Production	WSCC recognizes the regulatory responsibility of the regulatory responsibility of the Environmental Protection Agency, local air pollution control authorities and the Department of Ecology to secure and maintain such levels of air quality. The Commission opposes unnecessary field burning of greases for seed production and to assist and encourage CDs in such a manner that districts will provide land users and regulatory agencies with the best technical recommendations available.	
2	Position	<u>Forestry</u>	WSCC recognizes the important role forestry plays in the economy of the State and recognizes the responsibilities lie primarily with the non-industrial private woodlot owners.	1/20/77
		Service Forestry Program	Active partner in the development and implementation of service forestry programs. Commitment in future service forestry programs.	9/15/88
		Forest Stewardship Program	America The Beautiful Program Coordination with stewardship. Support and participation.	7/19/90
3	Position	Water Quality Enforcement Actions	Demonstrates the formal support of WSCC to Ecology in taking necessary enforcement action against farmers who willfully refuse to comply with the conservation districts efforts to improve and protect the surface and ground waters of the state.	1/20/94
